

## File a Formal Complaint - Tony Guzman

What impact does the alleged violation(s) have on the public?

Mr. Orozco used a city owned facility to throw an inaugural party at the cities expense. He did not pay to use the Wapato Community Center, he also used public funds to pay for food and beverages and entertainment costing the city thousands of dollars! This former mayor who is now the City Administrator has been spending money like there is no tomorrow. There needs to be a forensic audit into his blatant thievery. This took place on it about January 20th, 2018!!

I certify that the information is true!
