My response to Reese Williams complaint. I was opposed to the Fire Bond which was coming to a vote. I ordered yard signs , spent \$235.50 for them and when they arrived they were placed around Mount Vernon. At that time I was not aware of the necessity to file anything to express my right of expression. When contacted by Tabatha at PDC I filed a C-6 form correctly filled out and mailed to PDC. I anticipated that that filing would conclude my responsibility. Now the PDC claims they never received the C-6 form. A replacement is being mailed tomorrow. I did not initially file anything with the PDC because I was not aware that a \$235.50 expenditure, as an expression of my rights, was required. When made aware I filed a C-6, that PDC claims they never received. The details on the C-6 were as follows: on 3/20/2019 I ordered 50 signs from a company named Signrocket at a cost of @235.50. I received the signs in about 10 days, and they were placed around Mount Vernon. Mr Williams filed a complaint I guess about my constitutional rights of expression, I was contacted by Tabatha of the PDC and I did everything I was requested to do. I am still being contacted and I do not know what I need to do in order to get out from under the PDC microscope. Please make me aware what I need to do.
