1. Carrie barrow, the person whom I believe filed these allegations, is a past employee of Checker Cab and is a disgruntled ex-employee who also is a strong supporter of Brandi Peetz.
2. My F-1 was filed in January of 2019, did not go to open reporting until May 2019.
3. Checker Auto Sales trailer was removed from in front of residence because it was a company trailer and was being used as such. I now have a concern for my family as it has become apparent, I am being stalked as well as harassed by Brandi Peetz and/or her supporters.
4. There is no attempt to create mistrust for anyone, the statements used have been already released in public formats such as news stations and local print publications.
5. These allegations against me are some of the same types of harassment and intimidation she and her supporters used during her last election.
