I would like to accept your offer of help with a Filer Assistance Specialist to help me determine the exact amount of remittance. This cash came in at a breakfast event, with people paying for the cost of the breakfast in cash. In the calendar year 2017, I believe I raised around \$78,000, so 1% of that is 780, so the amount that goes to the State Treasurer should be \$443, not \$923 as claimed by Mr. Morgan.

I don't have the precise amount, so would hope you can help me with that.

Many thanks,

Dan Satterberg

Hi,

I would appreciate the assistance of the PDC to determine the amount that I need to send to the state to resolve this complaint.

The cash was donated at a breakfast event by people just paying the cost of the breakfast, but not filling out the envelopes. I am happy to resolve this, but want to make sure that we agree on the amount, which is a factor of the total "anonymous cash" minus 1% of the amount raised in 2017.

My cell phone is 206-229-7008

Thank you,

Dan Satterberg

Erick,

I am interested in wrapping this up. Can you tell me the amount of the check, the payee, and to whom I should send it?

The amount should be the difference between the "anonymous" cash reported and 1% of the amount raised by my campaign in 2017.

Thank you,

Dan Satterberg
