Tabitha,

Thank you for the email.

After filing for candidacy I immediately regretted the decision. My wife convinced me to stay the course and wait out the primary on 6 August 2019 to see how things turned out. Since I was just waiting for the results of the primary and not actively working to get elected I ignored most of the emails sent to the hoferfofcouncil6@gmail.com emails I had received and did not take the time to open them or reply. It was not until the email from your office on 19 July that I was even aware of the violation.

Sorry for any confusion that this has caused and for the extra work you and your office had to endure. Please accept my apologies and ask that you extend them to anyone who has been affected by this.

Thank you again for the information and patience.

Very respectfully,

Jared
