To Whom it may concern,

During late Spring and into these summer months I was consumed with time with my special needs sister who is 66 years old.

One night in late May she got up in early morning to use the restroom and ended up falling on tile floor, breaking her hip and hitting her head resulting in a concussion. To make a long story short she ended up at Harrison Hospital having hip replacement and some therapy before going to Martha and Mary rehabilitation ward. She remained there until her release August 28th to go home. Through all of therapy and hard work of therapist she now is confined to a wheelchair for the rest of her life.

At her residence we had to retro fit house with a ramp and make things right for her to live there. All this takes time T.L.C. and in our family, family comes first.

I am sorry for getting paperwork in late, I am trying to do this campaign running all on my own. I'll try my best from here on out to be compliant with everything needed to be done.

Thank you,

Ricky D. Moon
