

The candidate is misleading the public by representing that they previously or are currently elected and seeking re-election. The candidate has never been elected and was appointed March 18-2014 to fill a vacancy and was not able to get elected in 2016.

I have attached the signs she is posting all over town. The appointment record can be obtained from the city's minutes and her failed election can be obtained from the Benton County Auditors office.

 **Re-Elect**
City Council
McLeod
