Education: Applied science degree in electronic engineering

Occupation: technical consultant to the software industry

Statement:

I'm a father of three Seattle Public Schools students and I am a Seattle Public School graduate. I believe that a quality education is fundamental and if elected I will hold myself, the board and the superintendent accountable for all student's outcomes.

Each election there seems to be a district crisis that threatens the stability of our district and its' ability to provide a quality education for all of its students. This year's crisis is probably the worst I've seen in my 14 years as a SPS parent.

We need to insure the district can hire and retain the best teachers plus maintain our schools without taxing people out of their homes or taking on massive debt. Cutting teachers and librarians or forgoing building maintenance is not the answer to a financial crisis.

If elected I would conduct a review of all possible cost savings including elimination of central administrative positions and any unnecessary expenditures. I would like to see an expansion of the Running Start program and more online learning options, especially for credit recovery.

I'm ready to work for all our students and promote a cost effective path forward for Seattle public schools and I need your vote to do it. Please vote for me.
