### Statement:

Serving families, advocating for teachers, and fighting for high quality education for all is my passion. I have dedicated my professional career to empowering children, challenging the status quo, and demanding educators receive the respect they have earned.

The youngest members of our community deserve to be valued and celebrated, learning in a community which is safe, nurturing, and honors the whole child. My mission is to ensure all children have equal access to education, starting right here in our own community. Joining the Renton School Board will help me in achieving this goal.

Through my 15 years experience working directly with children/ families in an educational setting, I truly understand the needs we are failing to meet. While our lowest-income families may be supported by various state and federally funded programs, our middle-income families are left without affordable options for care. The cost of quality early childhood education and after school care is a detrimental burden and understandably cannot be prioritized over basic household needs.

Scientific evidence suggests long-term education outcomes are determined by early childhood success. Unfortunately, birth-to-five programs are undervalued and under-funded. Through strong advocacy and teamwork I know we can do better. Vote Deskin for change!
