Fox-

In response to the complaint, the information was provided by the CCRP Treasurer, Lauren Colas, but as prior information was already in the ORCA database, I was not aware that the information from more recent transactions had superseded existing information. As soon as the complaint identified the information in question, said information was updated and all reports were amended to reflect the changes, all within 24. Every effort will be expended to ensure that these errors are prevented in the future. CCRP has and will continue to comply with all PDC rules and regulations to stay compliant.

Please let me know if there is anything more information you need on this matter.

Thanks,

Geoff Morse
