to:

"PDC Support" <pdcc@pdcc.wa.gov>

I am having trouble logging in. I asked for my username, but it sent me the wrong information. It sent me my username for my work account with the state, not my personal account.

Are you able to help? My laptop died, so I am not able to use autofill, like I believe I did last time.

Thank you,  
Camille Díaz Hackler

I am being told to ask the PDC for help logging in. The following is an email I just received:

Hello!

Thank you for contacting SecureAccess Washington (SAW) <https://secureaccess.wa.gov> . The state's single sign on website for state agency services. Your request is for a Public Disclosure Commission agency service. The best place for assistance is with the agency or department that offers the service. <https://www.pdc.wa.gov/> or call 360-753-1111

The agency or department's contact information webpage will have their current contact info if you are not a member of the service already.

If you are a member (active, pending, suspended, or rejected) of the service you can click on the question mark (?) next to the service and it will display their email and a contact button. Click this button and fill out the form to email the service. After submitting your help request the service email will display and the phone number for the service will display if they have one listed.

Thank you,

The SecureAccess Washington and WaTech Support Teams

I am not entirely certain what is required for a statement.

I first ran for school board because no one else did. I believe that if we do not volunteer to make our communities better, we not only fail ourselves, we fail the principles our country were founded on. I don't consider myself a politician, and have never asked for endorsement from political parties. I consider myself a volunteer and a neighbor in my community, trying to give back for having gone to school in the same district I am trying to serve.

I have not raised funds and do not intend to. I am not running for fame or fortune. The position does not pay anything and costs me a lot of time and travel. But I am "paid" in being able to take part in the decisions that guide our superintendent and in watching our next generations grow and flourish. I am grateful that my forgetfulness was pointed out so that I could correct the situation. I guess that what happens as we get older. This grandma sincerely forgot I had other obligations as part of the privilege of being on the ballot. Please accept my sincere apology.

Again, please let me know if there is anything else that you need from me.

I thought that I completed both. I just logged in and on the Personal Financial Affairs Statement I see the following:

Our records show that you have either already filed for the current filing period —or— your account is LOCKED because of a pending report you filed in a previous year that is waiting for a SIGNATURE CARD.

When I go to the C-1 section and Committees I file for, the 2019 Year states "Complete". Is there another step I am missing?
