Mx. Blackhorn,

Based on complaint #58009 I understand that there is some concern that I may be advocating for certain legislation using resources owned by a public agency.

Based on the evidence provided in the complaint I see no involvement by myself to lobby, influence or contribute funds to this legislative effort.

In my role here at the City of Vancouver I am a manager in a department that includes both engineers and land surveyors and it is part of my expected managerial duties to be aware of legislative action or potential action that would affect my profession or department.

The email correspondence, provided with the complaint, indicates that I was being kept informed of exactly this kind of information by the Washington State Board of Engineers and Land Surveyors. There are no emails from me to legislators, in fact there are no emails from me anywhere in this evidence packet. I am asking you to dismiss this complaint by Mr. Hart. Please let me know if you have any further questions.

Thank you,

**Weston Dorszynski, City Surveyor**
