

Complaint Description

Codycrh (Mon, 30 Sep 2019 at 12:49 PM)

Derek Pohl, an employee of the County Road Administration Board, conspired with WA Board of Registration for Professional Engineers and Land Surveyors (BORPELS) to perform illegal grassroots lobbying efforts for 2019 SB 5443 & HB 1776. In support of the illegal lobbying activities, tax payer resources including machines, software, office space, and unauthorized reimbursement using tax funds for lobbying work during regular working hours occurred.

What impact does the alleged violation(s) have on the public?

Loss of public resources, loss of public funds, undermining of the democratic process, undermine the state legislature.

List of attached evidence or contact information where evidence may be found.

Attached you will find email correspondence that substantiates my allegations

List of potential witnesses with contact information to reach them.

Included in the attached email correspondence

Complaint Certification:

Subject: FW: Senate Bill 5443 passed through the Washington State Senate and now is in the House Consumer Protection and Business Committee

Good morning,

Our bill (SB 5443) is scheduled for a hearing on Tuesday March 19, 2019 at 1:30 PM before the House Consumer Protection and Business Committee.

One very interesting point, the executive session has already been scheduled for the following day at 1:30 ???? So the point of my email is that we would like to have the full committee (13 members) vote positive on moving this out to the floor which may allow for us to bypass the appropriations committee (and save us time, and reduce the chance it could be stalled out). Therefore, it would be great if each committee member were to get letters via emails, from the public including you, asking for their support in this important bill. Keeping it very simple and in their own words:

- SB 5443 administratively fixes the statute with the attorney general's findings that the Board of Registration for Professional Engineers and Land Surveyors has the authority and standing to operate as a separate State agency.
- These law changes will allow for the Board to operate, as intended by the legislation, to align budget authority with the regulatory responsibility.
- The Board is self-funded thru license fees

Would each of you send a brief letter (email) to the committee members asking for their support? It would be best for a brief email giving your background and history with a strong request to support. Chairman Kirby is a supporter.

Thank you,

Ken Fuller, P.E.

Subject: Senate Bill 5443 passed through the Washington State Senate and now is in the House Consumer Protection and Business Committee

Good afternoon,

Great work so far and thank you all for your help. Our bill moved forward to the house (Into the Consumer Protection and Business Committee),,we could use a few personal emails to the committee requesting it to be voted out and onto the floor. If we could get 30 or so professionals to send personal emails and phone calls to the chair Steve Kirby and a few emails to each of the committee members stressing the importance of this legislation it would be very helpful. Important points and the 1986 AG opinion are attached for your reference. BORPLES is an independent agency but without budget authority, this legislation will align the budget with the regulatory responsibility, allowing for a proactive outreach to our professionals in education and public awareness. THANK YOU.....

Hi Ken,

I was able to put forth your legislation to the On-Site Designers and Engineers on the WOSSA Board. WOSSA with the input of this group of individuals is willing to approve of and support the legislation unanimously with one addition. Under the section where the Governor appoints an executive director our board feels that the Governor should be able to choose from three categories: engineer, PE, **and onsite designer.**

Section 15

(3) The governor shall appoint an executive director of the 30 board. The executive director must hold a valid Washington license as 31 a professional engineer, professional land surveyor or on-site designer.

This is in keeping with WOSSA's commitment to involve professional engineers on its Board even though engineers represent a proportionally smaller amount of on-site designs. Several years ago WOSSA added an engineering representative position to the board and have had as many as two PE's on the board at one time, including in the VP President, President and Past President positions.

Kindest Regards,

Chuck Ahrens, Executive Director

Good morning,

AS you may know the State of Washington Board of Registration has contracted with a consultant to rewrite the specifics of the On-site Waste water design tests, and Meranda Lokey is our project manager. We are now at the Beta Test stage where we need help from the design professionals to determine the validity of the exam content, the difficulty of the questions, and the allowable time to take the test.

Your names were provide by Chuck Ahrens from WOSA as possible candidates (knowing you work outside of the Puget sound area) to gain a diverse review of this very important step. I appreciate you all are very busy, therefore, If you could verify that you would be willing to take a small amount of time to help us in the Beta test of the exam to me and to Meranda that would be helpful in the next step.

Thank you, and feel free to contact me if you need clarification.

Hi Chuck,

Thank you for the discussion today. To re-cap:

BORPLES Onsite Designer Exam development. We need 5 names of experiences but in the thick of work, designers, willing to BETA test the new exam. It would be nice to have folks from outside of the Tacoma/Seattle area.

Ric's list:

Lauren Wilkerson

SB 5443 (Attached talking points) has passed the Senate 44/4/1 and is in the house Consumer Protection and Business Committee (Representative Kirby is chair) with a potential hearing next week. We are looking for support to get this passed out of committee and onto the floor for a vote (hopefully the Governor's support to sign it into law) .

Thank you and welcome back.

Ken Fuller, PE

Good afternoon,
SB 5443 has been assigned to the House appropriations committee. The Chair is from Spokane (Timm Ormsby). WE need a grass root letter campaign to your legislators and at least to the 6 ranking (Majority and Minority) outlining your ask for support. **Brief**, budget neutral, important for proactive outreach and education of the public and the professions, etc.... Let me know if you need the talking points.

Here is what I sent to Chair Ormsby

Dear Chairman Ormsby,

Thank you for considering supporting SB 5443 which has been assigned to the House Appropriations Committee. I have been in the Engineering and consulting field for over 30 years (mostly in the private sector with Boeing, Weyerhaeuser, My own firm, and Young life) and have gained a great respect for our Engineering and Land Surveyor Board. I have a residence in Lakewood, WA. Last year I took on my current assignment, when the Board ask me to help in raising the ethical bar in our professions as well as gaining a proactive and strategic influence within our State's professions we regulate. This pursuit led us to request the changes in statues included in this bill.

SB 5443 is a refinement to the mid-1900's legislation which formulated the regulatory board to set the qualifications and practice statutes and rule of the engineering and land surveying professions in Washington State. The original statute created the board as an independent agency but did not clearly set the budget authority, therefore the workings of our budget has been managed by the DOL within an interagency agreement which has been confusing and inefficient. In simple terms, if successfully signed into law, this bill will give the Board the budget management over the 024 account which will allow for a significant focus on outreach, ethics, and proactive education to the public and our professionals, as well as continue to allow the great services the DOL does within the licensing and certain administrative functions thru an interagency contract. Our funding is fully covered by fees collected from our professions and there should be no fiscal impact to the State General Fund.

Thank you very much for your time and service to the citizens of the State of Washington. On a personal note, I managed the construction, as a consulting engineer to the State of Washington, for the Washington State History Museum which won the 1997 NW Masonry Award.

With warmest regards,

Ken Fuller, PE

Subject: BORPLES Legislative Action SB 5443
Date: Tuesday, March 26, 2019 5:40:00 PM
Attachments: [BORPELS Talking Points .pdf](#)
[Att. 2 AGO Opinion 1986.docx](#)
[SB 5443.pdf](#)

Dear Sara, Dan, and Scott,

This year BORPELS decided to pursue a legislative fix to our budget authority complexities with DOL. The Bill is SB 5443 and has been gaining support (passed the Senate 44/4/1) and made it thru our first house committee (13/0) to move onto the House Appropriations Committee. I have attached the 1986 AG's opinion which verified that the Board is a separate and standalone agency, but realize the fees, and budget were assigned to the Director of DOL many years ago creating an inefficient and somewhat complex separation of the responsibilities and authority.

This action will officially grant BORPLES its independence but allow for us to continue to contract into DOL for administrative and licensing services. The Board will be able to manage the budget (within State guidelines thru DES) and assign resources to strategic plans with education and outreach into the professions and the public as a first priority.

I realize this email comes with a bit of a shock, but I would appreciate you all sending emails to the Chair Timm Ormsby and a few of the legislators on the committee requesting their support.

Subject: SB 5443, House Appropriations Committee Grass Roots email's

Good morning,

I have spoken with Cliff Webster regarding the best path forward for this bill. He suggested a "grass roots" letter (email campaign) to all of the committee members.

All of us have already started this so it may be a bit late to change up. I am attaching a excel sheet with all of the house appropriations committee members with emails and LA contacts (for the D's, the R's do not show these) and a condensed bio along with suggested assignments. If you are willing to write 10 or so emails please do so, if you have already sent out emails then credit yourself.

Cliff suggested not using the Portal, which is shown as the access for most of the "D's". It is best to send an email directly to the Representative and cc their LA's (for the D's). I have had good luck with getting letters to them. In reality the Legislative assistants are the ones who pick up the emails and brief the Representatives.

Keep it very brief with a personal touch.

A few examples:

Dear Representative Ryu , (from Ken)

Thank you for your support of SB 5443. I have been in the Engineering and consulting field for over 30 years (mostly in the private sector with Boeing, Weyerhaeuser, My own firm, and Young life) and have gained a great respect for our Engineering and Land Surveyor Board. I have a resident in Lakewood. Last year I accepted my current assignment, when the Board ask me to help in raising the ethical bar in our profession as well as gaining a proactive and strategic influence as our country is seeing a need to step up our professional ethic in our professions. This pursuit led us to request the changes in statues included in this bill.

SB 5443 is a refinement to the mid-1900's legislation which formulated the regulatory board to set the qualifications and practice statutes and rule of the engineering and land surveying professions in Washington State. The original statute created the board as an independent agency but did not clearly set the budget authority, therefore the workings of our budget has been in control of the DOL with an interagency agreement giving us the operating juice. In simple terms, if successfully signed into law, this bill will give the Board the budget management over the 024 account which will allow for a significant focus on outreach, ethics, and proactive education to the public and our professionals, as well as continue to allow the great services the DOL does within the licensing and certain administrative functions thru an interagency contract.

Thank you very much for your time and service to the citizens of the State of Washington. I also believe it will take all of our professions to step up to mentorship of our youth to lead to a better place and cleaner waters.

With warmest regards,

One From Steve

Dear Representative Volz,

I am writing to you to request your support for SB5443. This legislation would greatly assist the Board of Registration for Professional Engineers and Land Surveyors (BORPELS) in the administration of its responsibilities regarding the oversight of qualifications and conduct of the professionals that have significant responsibility for the health and safety of Washington citizens. I am a registered professional engineer with over forty years in the consulting business in Spokane. I have been serving on the Board for nearly nine years and have a keen understanding of the importance of this bill with regard to the ability of the Board to carry out its legislative charge.

SB 5443 is a refinement to the mid-1900's legislation which formulated the engineering and land surveyors regulatory board to set the qualifications and practice statutes and rule of these professions in Washington State. The original

statute created the board as an independent agency but did not clearly set the budget authority. Consequently, the administration of our budget has been managed by the DOL with an interagency agreement that has been somewhat confusing and inefficient. In simple terms, if successfully signed into law, this bill will give the Board the budget management over the 024 account which will allow for more significant and timely focus on outreach, ethics, and proactive education to the public and our professionals, as well as continue to allow the great services the DOL offers within the licensing and certain administrative functions through an interagency contract. The Board is fully and independently funded through the fees collected from the professions, and we have full support of the associations representing the professions.

I would like to personally thank you for your time and service to the citizens of the State, and particularly Eastern Washington.

Thank you for your thoughtful consideration of this legislation.

Let me know if I can help. Thank you. We have been getting a great response.

Hi Ken,

I have forwarded on your request to our engineering and on-site designer board members ... hoping they will respond to your call for a grass roots email effort. On behalf of WOSSA and its members I will be drafting a letter of support for SB 5443 as well. Thank you for putting forth the time and effort on behalf of our industry, it is greatly appreciated.

Sincerely,

Chuck Ahrens, Executive Director

Good morning,

Would you all be able to ask a few of your select Designers, Engineer's, Land Surveyors if they would send out a email requesting support of SB 5443? It would be great if we could get letters to each of the legislators from the professions.

The attached excel sheet has the contact emails for the committee, we have found it best to email and not use the portal.

Thank you,

Ken

Subject: SB 5443, House Appropriations Committee Grass Roots email's

Good morning,

I have spoken with Cliff Webster regarding the best path forward for this bill. He suggested a "grass roots" letter (email campaign) to all of the committee members.

All of us have already started this so it may be a bit late to change up. I am attaching a excel sheet with all of the house appropriations committee members with emails and LA contacts (for the D's, the R's do not show these) and a condensed bio along with suggested assignments. If you are willing to write 10 or so emails please do so, if you have already sent out emails then credit yourself.

Cliff suggested not using the Portal, which is shown as the access for most of the "D's". It is best to send an email directly to the Representative and cc their LA's (for the D's). I have had good luck with getting letters to them. In reality the Legislative assistants are the ones who pick up the emails and brief the Representatives.

Keep it very brief with a personal touch.

A few examples:

Dear Representative Ryu , (from Ken)

Thank you for your support of SB 5443. I have been in the Engineering and consulting field for over 30 years (mostly in the private sector with Boeing, Weyerhaeuser, My own firm, and Young life) and have gained a great respect for our Engineering and Land Surveyor Board. I have a resident in Lakewood. Last year I accepted my current assignment, when the Board ask me to help in raising the ethical bar in our profession as well as gaining a proactive and strategic influence as our country is seeing a need to step up our professional ethic in our professions. This pursuit led us to request the changes in statutes included in this bill.

SB 5443 is a refinement to the mid-1900's legislation which formulated the regulatory board to set the qualifications and practice statutes and rule of the engineering and land surveying professions in Washington State. The original statute created the board as an independent agency but did not clearly set the budget authority, therefore the workings of our budget has been in control of the DOL with an interagency agreement giving us the operating juice. In simple terms, if successfully signed into law, this bill will give the Board the budget management over the 024 account which will allow for a significant focus on outreach, ethics, and proactive education to the public and our professionals, as well as continue to allow the great services the DOL does within the licensing and certain administrative functions thru an

interagency contract.

Thank you very much for your time and service to the citizens of the State of Washington. I also believe it will take all of our professions to step up to mentorship of our youth to lead to a better place and cleaner waters.

With warmest regards,

One From Steve

Dear Representative Volz,

I am writing to you to request your support for SB5443. This legislation would greatly assist the Board of Registration for Professional Engineers and Land Surveyors (BORPELS) in the administration of its responsibilities regarding the oversight of qualifications and conduct of the professionals that have significant responsibility for the health and safety of Washington citizens. I am a registered professional engineer with over forty years in the consulting business in Spokane. I have been serving on the Board for nearly nine years and have a keen understanding of the importance of this bill with regard to the ability of the Board to carry out its legislative charge.

SB 5443 is a refinement to the mid-1900's legislation which formulated the engineering and land surveyors regulatory board to set the qualifications and practice statutes and rule of these professions in Washington State. The original statute created the board as an independent agency but did not clearly set the budget authority. Consequently, the administration of our budget has been managed by the DOL with an interagency agreement that has been somewhat confusing and inefficient. In simple terms, if successfully signed into law, this bill will give the Board the budget management over the 024 account which will allow for more significant and timely focus on outreach, ethics, and proactive education to the public and our professionals, as well as continue to allow the great services the DOL offers within the licensing and certain administrative functions through an interagency contract. The Board is fully and independently funded through the fees collected from the professions, and we have full support of the associations representing the professions.

I would like to personally thank you for your time and service to the citizens of the State, and particularly Eastern Washington.

Thank you for your thoughtful consideration of this legislation.

Let me know if I can help. Thank you. We have been getting a great response.

Ken Fuller, PE

Executive Director,

Washington State Board of Registration for Professional Engineers and Land Surveyors

Ken,

Sent following to everyone on the committee list.

RE: SB 5443

Dear Representative ,

I am writing to you today to respectfully request your support for SB 5443. As a professional onsite wastewater designer with over 30 years of experience, I have been involved with both local health jurisdictions and Washington State Boards of Health and Engineering, Surveying and Wastewater Designers. Over the past year, I have had the pleasure of working with the Executive Director of the Board of Engineers, Ken Fuller, assisting the Board in revising and updating the State Designer test as well as reviewing proposed policies and protocols related to disciplinary and educational programs.

SB 5443 is a refinement to previous legislation regulating the Engineering Board which set the qualifications and practice statutes and rules of the engineering and land surveying professions in Washington State. Onsite wastewater designers were added to the Board purview in 2000. The original statute created the board as an independent agency but did not clearly set the budget authority, therefore budget authority has been in the control of the Department of Licensing with an interagency agreement giving the Board operating input. In simple terms, if successfully signed into law, this bill will give the Board budget management over the 024 account which will allow for a significant change of focus on outreach, ethics, and proactive education to both the public and professionals subject to, and regulated by the Board. The DOL would continue to perform administrative functions through an interagency contract with the Board.

Thank you for taking the time to read my correspondence. I appreciate your service to the citizens of the State of Washington.

Respectfully,

Richard Wilkerson

Good afternoon,

SB 5443 has been scheduled for Appropriations for Sat April 6 at 9:00 am with 36 other Bills. Cliff let me know that they most likely will go in the order listed so we are 35/39. Therefore, depending on the 34 Bills in front of us our bill may not be presented until after noon. The advice given is to be very short and present less than 1 minute with a very low impact fiscal note discussion and be available to answer questions. If one of you are available to discuss and want to spend your Saturday with me in Olympia that would be great. I will go into the meeting at 9:00. Let me know if you want and can be there. Everyone believes the bill will pass thru without much of a hitch.

Subject: BORPLES Legislative Action SB 5443

Dear Sara, Dan, and Scott,

This year BORPELS decided to pursue a legislative fix to our budget authority complexities with DOL. The Bill is SB 5443 and has been gaining support (passed the Senate 44/4/1) and made it thru our first house committee (13/0) to move onto the House Appropriations Committee. I have attached the 1986 AG's opinion which verified that the Board is a separate and standalone agency, but realize the fees, and budget were assigned to the Director of DOL many years ago creating an inefficient and somewhat complex separation of the responsibilities and authority.

This action will officially grant BORPLES its independence but allow for us to continue to contract into DOL for administrative and licensing services. The Board will be able to manage the budget (within State guidelines thru DES) and assign resources to strategic plans with education and outreach into the professions and the public as a first priority.

I realize this email comes with a bit of a shock, but I would appreciate you all sending emails to the Chair Timm Ormsby and a few of the legislators on the committee requesting their support.

Hi Dan,

Would you have a bit of time to contact your local representatives on the House Appropriations committee to ask for them to move SB 5443 out of committee and onto the floor. We presented this to the appropriations committee on Saturday and up until that hearing we had no negative comments. One PE spoke at the hearing in the nay, and right after that things stalled out. This bill fully separates the BORPELS budget from DOL. Let me know if you are willing and need a bit more information.

Thank you,

Ken Fuller, PE

Ken,

I texted Timm Ormsby and told him it is important to the professions of engineering and land surveying to get this bill to the floor. Dan

Subject: FW: SB 5443 Need phone calls to the Committee members

Hi Dan,

Would you have a bit of time to contact your local representatives on the House Appropriations committee to ask for them to move SB 5443 out of committee and onto the floor. We presented this to the appropriations committee on Saturday and up until that hearing we had no negative comments. One PE spoke at the hearing in the nay, and right after that things stalled out. This bill fully separates the BORPELS budget from DOL. Let me know if you are willing and need a bit more information.

Thank you,

Ken Fuller, PE

Subject: SB 5443 Need phone calls to the Committee members

Good morning,

Our hearing before the House Appropriation Committee this Saturday apparently did not go well. We had one person testify in the "con" and the house members are uncomfortable with that. Could

you call a few of the members on the Appropriations committee and let them know of your support and ask them to vote this onto the floor? The committee names and phone numbers are attached in a excel sheet

Thank you,

Ken Fuller, PE

Hi all,

It is our understanding the bill is under real threat of not getting pulled out of committee. Could you make a real effort of attempting to call or email and get the work out for others to do the same...

Today, Please. If it is not pulled today we are done...

Thank you

Ken Fuller, PE

Dear Representative ____:

As President of the Washington Society of Professional Engineers (WSPE), I am requesting your support of Substitute Senate Bill 5443 concerning the Board of Registration for Professional Engineers and Land Surveyors (BORPELS).

An affiliated state society of the National Society of Professional Engineers, WSPE consists of 189 individual members who are registered Professional Engineers (PEs) or Engineering Interns on the path to become PEs. While we represent all the main fields of engineering, we are bound by a common ethical obligation to “hold paramount the health, safety, and welfare of the public” in our engineering practice.

As our licensing board, BORPELS serves a vital function in helping us keep the residents of our state safe from unscrupulous, incompetent, and unethical engineering practice. It also helps in spreading awareness of our ethical and legal responsibilities as engineers, educating the public about our profession, and preparing new generations of graduating engineers for entry into the profession. By clearly delineating the statutory functions of BORPELS and establishing it as an independent agency, SSB 5443 will free it to focus on these functions in which it excels, thus enhancing its ability to serve its constituency of current and aspiring professionals, as well as the residents of our state.

As an engineering educator, I consider one of my greatest obligations to be the preparation of my students for licensure as Professional Engineers. With the knowledge and tools to bend nature to our will, engineers have the capacity to do great harm as well as great good. Licensure serves as a means of holding my profession accountable for the consequences of its practices. For that, we need a strong, independent state board. For us, that board is BORPELS. Please vote “yes” on SSB 5443.

Sincerely,

Steven W. Collins, PhD, PE
President, Washington Society of Professional Engineers
(425) 463-8432

Subject: RE: BORPLES Legislative Action SB 5443
Date: Monday, April 08, 2019 5:59:00 PM

Hi Sara and Scott,

We are at the wire on getting this through the House Appropriations committee. Could you send a short Email to Rep. Timm Ormsby asking him to please move this forward out of committee onto the floor. I am reaching out to you lat but it would need to be done tonite if you are willing.

Thank you,

Ken Fuller

Subject: BORPLES Legislative Action SB 5443

Dear Sara, Dan, and Scott,

This year BORPELS decided to pursue a legislative fix to our budget authority complexities with DOL. The Bill is SB 5443 and has been gaining support (passed the Senate 44/4/1) and made it thru our first house committee (13/0) to move onto the House Appropriations Committee. I have attached the 1986 AG's opinion which verified that the Board is a separate and standalone agency, but realize the fees, and budget were assigned to the Director of DOL many years ago creating an inefficient and somewhat complex separation of the responsibilities and authority.

This action will officially grant BORPLES its independence but allow for us to continue to contract into DOL for administrative and licensing services. The Board will be able to manage the budget (within State guidelines thru DES) and assign resources to strategic plans with education and outreach into the professions and the public as a first priority.

I realize this email comes with a bit of a shock, but I would appreciate you all sending emails to the Chair Timm Ormsby and a few of the legislators on the committee requesting their support.

Subject: RE: SB 5443 is needing Immediate help
Date: Tuesday, April 09, 2019 3:37:00 PM

Good afternoon,

Thank you everyone for all of your work and support for SB 5443. As of this morning the bill is stalled out in the appropriations committee of the house and it looks like it is "dead on the vine". I have not received official word but according to the House rules and calendar if it not did get pulled out of committee and onto the floor today it is dead.

I have a few calls out to legislative staff to determine exactly what in the bill wasn't acceptable or was it just a case of numbers (too many bills) that it was left in committee. I will know more in the near future.

Thank you for all of your support and efforts on this. This does set us up for the next session well and we will be sending out information as to the next steps.

Best to you all,

Ken Fuller, PE
541.647.7265

Dear Ken,

I'm contacting you from my personal email so as not to infringe UW policies with respect to lobbying. Hoping this gets through your email filters.

I called and left a message with Committee Chair Ormsby per your request yesterday, and this morning sent email messages (see below) to every legislator on the committee. Also passed along your message to the WSPE Executive Committee. I hope it helps.

Best wishes,

Steve Collins
WSPE 2018-19 President

Good morning,

Last night the Washington State Senate passed, 45 to 1, our bill onto the House thru a brilliant action by Senator VanDeWege, attaching our bill language to HB 1176 thru an amendment (DOL sponsored bill on RCW 18.43, and other RCW's, language cleanup).

Therefore, the Bill HB 1176, is now in House Rules committee. Please have OS's, PE's, PLS's contact their representatives to ask for support of HB 1176, as amended and be ready to help in contacting the Governor's office, once successfully voted out of both chambers.

Thank you,

Ken

Executive Director,

Washington State Board of Registration for Professional Engineers and Land Surveyors

Board of Registration Update and Discussion

PRESENTED BY:

Ken Fuller, PE, Executive Director

Board of Registration Update and Discussion

TODAY'S TOPICS:

Practice and Outreach

Exam Updates

Cases and Trends

BORPLES Legislative Action

Disclaimer

Information and discussions before, during or after this session are based on the individual opinions and/or experiences of the board members present and may be shared by various members of the Board, but they are not to be interpreted as a policy, position, or consensus of the Board or court of law.

Practice and Outreach

Subjects today:

- Stamping, Sealing and Transmitting Maps, etc.
- TOPO Map standards
- Complaint Process
- Students and Industry
- Cases and Trends

Practice and Outreach

"Electronic" Stamping and Sealing Documents (*Opinion*) - *Continued*,

- **Board Policy:**

- It is accepted practice for engineering, land surveying and on-site wastewater design documents to be prepared, stored and transmitted in electronic format.
- These electronic documents must still meet the applicable requirements of:
 - Chapter 18.43 RCW,
 - Chapter 18.210 RCW (*Onsite*),
 - Chapter 196-23 WAC and
 - Chapter 196-33 WAC.

Practice and Outreach

WAC 332-130-145

Topographic elements on maps—Requirements

Subject Matter Experts:

Volunteers from Industry and Profession

Tom Barger, PLS
Mitch Duryea, PLS
Jim Coan Sr, PLS, CFedS
Mel Garland, PLS
Lucas Lymangrover, PLS
Jon Purnell, PLS
Mitch Evans, PLS
John Christensen, PLS
Tim Kent, PLS

Ken Fuller, PE Executive Director for Board
Sarah Pittman DOL Facilitator
Amanda Dainis Psychometrician
Meranda Lokey Psychometrician

State specific exam updates:

Washington State 4-hour Land Surveyor's Examination

1. The NCEES does not administer the State 4-hour exam. However, they do administer the NCEES 6-hour PLS Exam.
2. A Job Task Analysis (JTA) was completed in October 2018, which resulted in a new exam content outline.
3. An item writing workshop was held in January of 2019, which will result in at least two new exams containing 40 questions each.
4. Until further notice, the 4-hour exams will be Pencil and Paper based on the same application schedule as CBT.

For information regarding the Washington State 4-hour land surveyor's exam, please contact our office at 360.664.1575 or by email to engineers@dol.wa.gov.

State specific exam updates:

- Exam has been extended to 40 multiple choice questions (a-d)
- Exam items will be a combination of text or text/illustrations.
- Exam will be based upon newly approved outline.
- Exam duration will change to 4 hours, including instructions and review time.
- Exam will remain as open book.
- Approved calculators (based upon NCEES policy) are permitted
- Additional paper (which will be collected by the proctor) will be provided for sketching and calculations.
- No notes will be permitted to be removed from exam.
- Results available within one week (estimate)

Disciplinary Cases and Trends

- Stamps and Seals (WAC 196-23)
- Unprofessional Conduct (WAC 196-27A)
- Not responding to the Board (WAC 196-27A)
- Local Industry does the same thing (RCW 18.43)

BORPLES Legislative action

- SB 5443
 - State Gov. and Tribal Affairs and Elections
 - Ways and Means Committee, and RULES
 - Vote 44 / 4 Out of Senate
 - House Consumer Protection and Business Committee
 - Appropriations (Stalled)
- HB 1176 Amended in Senate with language from SB 5443 passed Senate 46/1 moved to House Chamber in Rules.
- Next Step if it passes House as is, is Governor's signature

What does this Bill accomplish?

- Legislation in the mid 1900's created BORPLES as an independent Board with all authorities
- Budget Authority (024 app) was moved to DOL control
- This bill closes the gap in budget and regulatory
- Education and Outreach to the professions and the public. Raising the bar of professional ethics and adherence to the statutes and rules.
- Aligns staff to BORPLES control and allows for contracting back into the DOL for the services the department is excellent at, and allows for focus on three professions (OS, PLS, PE).

BORPLES/DOL Staff

- Executive Director (Licensed PE or PLS)
- Executive Administrative Staff member
- Outreach/Education, Electronic, Communications MNGR
- Compliance, Enforcement, EXAMs, Complaint process
- DOL Staff:
- Licensing
- Computer data bases and process tracking
- Certain Administrative functions
- Intake of compliants and some investigations

Good morning,

The e-message portal will ask a few questions to get you started and then there a message line. Here is a suggested outline:

Dear Governor Inslee, I am writing you to request your support and signature of HB 1176 as amended. This legislation would greatly assist the Board of Registration in the administration of its responsibilities regarding the oversight of qualifications and conduct of the professionals whom have significant impact of the health and safety of Washington Citizens. (((Example of a personal note I am a registered professional _____ with over ____ years in consulting, (leading the association, adding your personal note). I would like to personally thank you for your service to the citizens of Washington State and thank you for your thoughtful consideration of this legislation. Sincerely, Dan Evans, P.E.

Ken

Hi Crissy,

Is it possible to email the general membership to ask them to contact the Governor's office to asking him to support and sign

HB 1176.

James Wengler

Good afternoon

HB 1176 as amended with SB 5443 passed the house today with a 96/0 vote. This is great news.

We have been advised to get as many Professionals (OnSite, Land Surveyors, and Engineers) to contact Governor Inslee's office asking for his support in signing this into law.

Give a short brief on who you are and request his support.

Attached is a hyperlink to the e-message web-site:

The proper way to contact the Governor's office is to send an e-message via the following website, <https://www.governor.wa.gov/contact/contact/send-gov-inslee-e-message>.

Under "What is the subject of your message?" you should select the drop-down option "Legislative Bills and Comments." The e-message also allows you to attach documents.

The other way to contact the Governor is to mail a letter to:

Governor Jay Inslee

To: Shirk, Drew (GOV)
Cc: Perschbacher, Beau (DOL) ; Fuller, Ken (DOL)
Subject: HB 1176, with amendments, Brief

Good morning Drew,

I transmitted a call to you last week and want to follow up with you regarding HB 1176 with amendments, which may be on the Governor's desk for his consideration.

HB 1176, originally was a concise cleanup of language in a few of the professional licensing statutes including RCW 18.43, which is the Engineer's and Land Surveyor Act. During the final reading and floor vote of HB 1176, the Senate amended the bill by adding language from a stalled out bill, in House appropriations, SB 5443 onto it. The amended bill passed both chambers (45/1/3) and (96/0/2).

This bill has strong support from the Board, the Licensed Professional Engineers, Land Surveyors, and Onsite Waste Water designers as well as the professional associations representing them. The amendments to HB 1176 aligns the budget authority, of the appropriations funded thru fees collected from the 3 professions, to the operating and regulatory authority already conferred to the Board of Registration for Professional Engineers and Land Surveyors (BORPELS) thru RCW 18.43. The bill create BORPLES as a fully operating stand-alone small agency, but continues certain DOL administrative and licensing functions thru an interagency contract model (which, other than budget) is how it currently functions.

Would you have time to meet with me to address this bill?

Sincerely,

Ken Fuller, PE

Date: Monday, April 29, 2019 9:53:00 AM

Hi Bruce and others,

I will answer Bruce's questions in Red..

- Will this entail budget and staff changes? For example, are BORPELS funds earmarked before being disbursed to the DOL?
 - Budget will remain the same. (The State functions in a two year budget cycle Biennial Year 'BY') Legislation appropriated to the 024 account "engineers and land surveyors", separate from any other funds to DOL, currently (BY 17/19) is just under \$4 million and the proposed Senate appropriation for BORPLES (BY 19/21) as a small agency is just under \$4 million. DOL has been given control over the appropriation, which will revert to BORPLES if the bill becomes law.
 - Currently BORPLES is allocated 11.7 FTE's (Full time equivalent) thru DOL. 1 Position (Executive Director) is a Direct report FTE to BORPLES the remaining 10.7 FTE'S are a mixture of the Business and Professions Division (BPD) staff and managers providing various services and functions. Currently all 11.7 FTE's are assigned DOL overhead costs of roughly 26 percent, which includes costs of enterprise computer systems, cloud, web services, payroll and accounting..
 - Under the proposed new structure, 4 direct FTE's will be BORPLES employees. (Executive Director, Administrative Lead, Outreach/Education and communications Leader, Deputy Director which potentially will be another licensee). Contracting back into DOL for 6 FTE's as a mixture of the Business and Professions Division staff and managers providing various services and functions. The roles and responsibilities of each program task, process, and function are being developed and divided into clear lines to assure the administrative functions of BORPLES continues. The budget appropriations will not change.
- Do the two entities share any costs that would now need to be separately and fully funded by the BORPELS?
 - Cost sharing will continue as we will co-locate with DOL BPD. Currently most costs are broken out and tracked separately (contracts, printing, office supplies, travel, % of salaries and benefits for each portion of assigned employee, leases, computers and equipment, Exam costs, dues, web site, telecommunications, State Attorney General Costs, payroll, etc..) which will make this easier to split and identify the future shared costs.
 - Under the proposed new structure the roles and responsibilities of each program task, process, and function will be developed and divided into clear lines to the 4 direct BORPLES employees and assignments to DOL's 6 FTE's. DOL will continue to provide Web services, email, space leases and utilities, computers, software, public record service, translations services, legislative counsel, training, etc., as they currently provide, which BORPLES will pay for as a stand-alone item for the 4 direct employees and will be included in an overhead (burdened rate) for each of the 6 DOL positions.
 - Direct Program costs and Overhead costs for the 4 BORPLES Employees and

Board functions will be direct to BORPLES (accounting and HR services will be contacted thru the Small Agency Division of Department of Enterprise Services). We are working on processes and functions to be assigned to the DOL BPD 6 FTE's and the cost sharing portions.

- Will the authority of the BORPELS relative to other State agencies remain as is, or could it be diminished by no longer being associated with the DOL?
 - The authority of the BORPLES relative to other State agencies is dependent on our relationship with the agencies as well as what the Statutes and Rules, they are in responsible charge of, prescribe. My charge is to continue to develop the relationships with other agency's rule making leadership, to gain an understanding of the issues in the Statues and Rules they are in responsible charge as it relates to our professions, PE, PLS, On-Site designers. I realize the connections with the Directors at the executive cabinet level (DOL, DES, WSDOT, Ecology...) may change in functional alignment. However, the current Director of DOL, Teresa Berntsen, and her staff have continued to promote a strong partnership with BORPLES as this process has moved forward, independent of the bill's outcome. I do not believe the bill will change the working relationships with the other agencies
- Some before and after numbers and structural functional detail would be helpful. See above. More to come.

Thank you for your questions and support.

Sincerely,

Ken Fuller, PE

Executive Director,

Washington State Board of Registration for Professional Engineers and Land Surveyors

"Bruce wrote";

I would like to consider the merits of SB 5443, but am finding the document in the link provided, as well as the bill itself, insufficiently illuminating for me to render a reasonably-informed opinion. The statements in the BORPELS.pdf are too abstract. Will this entail budget and staff changes? For example, are BORPELS funds earmarked before being disbursed to the DOL? Do the two entities share any costs that would now need to be separately and fully funded by the BORPELS? Will the authority of the BORPELS relative to other State agencies remain as is, or could it be diminished by no longer being associated with the DOL? Some before and after numbers and structural functional detail would be helpful.

Also, what is the time-window for our response?

Thank you for your consideration.

Hi Bruce,

Good questions, some of which I can answer and others, I think Jim Wengler (cc'd on this email) may be better suited to answer, since they are very specific.

Answers to your LSAW questions;

The "Board of Trustees" has been changed to the "Board of Directors" to reflect the true legal capacity recognized by the State. Most simply, it is a name change.

The "Executive Committee" has always existed, heading the Board of Directors/Trustees. In essence, you are correct in the general concept of the Executive Committee and BOD "being one in the same".

Your questions regarding HB 1176;

As far as a response time line-the bill is in the process of heading to the Governor for consideration. (At least the last time I checked this morning.)

Regarding the other related questions, Jim may have more details and follow up on the particulars.

Thank you contacting us with your comments and questions!

Subject: RE: Call to Action: HB 1176

Hello all:

Pardon my ignorance, but am I to assume the LSAW Board of Directors, LSAW Board of Trustees and the Executive Committee are all one and the same? If not, please set me straight.

I would like to consider the merits of SB 5443, but am finding the document in the link provided, as well as the bill itself, insufficiently illuminating for me to render a reasonably-informed opinion. The statements in the BORPELS.pdf are too abstract. Will this entail budget and staff changes? For example, are BORPELS funds earmarked before being disbursed to the DOL? Do the two entities share any costs that would now need to be separately and fully funded by the BORPELS? Will the authority of the BORPELS relative to other State agencies remain as is, or could it be diminished by no longer being associated with the DOL? Some before and after numbers and structural functional detail would be helpful.

Also, what is the time-window for our response?

Thank you for your consideration.
