5 of your Firefighters participated in Crunch Time this weekend. The class is an all hands on, vehicle extrication, stabilization and lifting class. The picture is of the carnage, and amount of vehicles we got to cut up. Not pictured are the school busses and commercial vehicles.

Hello Citizens of Union!

I want to clear up some information that went out in Michelle Ozaki's Voter Information Pamphlet - The numbered items are quoted directly from Ms. Ozaki. The RESPONSE is my response to her statements.

1. "I want to look for ways to improve our community fire and EMS taxes which currently are the second highest in Mason County - while the number of emergency calls we run is one of the lowest"...

Karen Cowan What a informative response and I approve of this message. I am just a resident of Union but I am so grateful for our Fire Department as my husband is very ill and I have needed their services many times. Without their quick response my husband may not still be with us. So thank you Union Fire Department from the bottom of our hearts 🧡🧡🧡.

4d

Judy Grote My name is Martin Grote. I am a volunteer at MCFD 6 and I also approve this message.

Good Evening friends! We just got word another email has gone out, claiming to be "Union Volunteer Firefighters", supporting a political campaign. The dedicated, hard working volunteers that actually serve your community for good, have nothing to do with this email. Again, the person who sent this email is known to dislike the fire department and has a personal vendetta and conquest to ruin everything we are doing, thus putting the safety of our community and first responders in danger.

While the email is intended to trick and deceive you, we would like to raise a few points:

We average more, highly trained volunteers on each call, than most other fire districts.

We are transporting Union residents to the hospital with no costs to the individual.

Our response times are some of the lowest in the county.

Those few points are 100% credited to our current board, staff and volunteers. If you want to jeopardize any of these, plus many other things, please believe the email. If you want to support us, we always appreciate kind words. The current staff, board and volunteers love our community and the great fire district we live in, which is why we choose to risk our lives day in and day out, to help our friends and neighbors in need.

Statements made by this individual have been twisted, turned, molded, and made into half-truths. If you have any questions about financials, taxes, responses, or anything else relating to the fire district, please stop by the station. They are more than happy to present the facts.

Thank you for being a great community and believing in us. We couldn't do it without the support of you.

Sincerely,

Your Volunteer Firefighters, EMT's and Responders

Friends - we have had community members come to us, and ask us about emails they have received, web pages that are up and rumors spread around the community. NONE of these are from current volunteers. The information you are receiving is intended to deceive, and convince you that there is a problem in the fire department. The email addresses that are being used, and the webpages that are posted are anonymous, and designed to trick you that the false, half-truth, rumored infor... [See more](#)

Mason County Fire District #6 honored Joe Fassio for his selfless acts to save life and property on August 1st during the Union Bank Fire. Joe is an experienced fire line bulldozer operator and when he noticed his community was in danger, he put himself and his equipment in between homes and the flames to lay down crucial line saving those homes. Even after saving those homes, Joe was right beside firefighters pulling hose and extinguishing spot fires. Joe Fassio was a crucial link in the chain that made this fire a successful event.

This explains the evacuation levels used during emergencies like we experienced during the Union Bank Fire.

**LEVEL 1:
“BE READY” for potential evacuation.**

Residents should be aware of the danger that exists in their area, monitor emergency services websites and local media outlets for information. This is the time for preparation and precautionary movement of persons with special needs, mobile property and (under certain circumstances) pets and livestock. If conditions worsen, emergency services personnel may contact you via an emergency notification system.

**LEVEL 2:
“BE SET” to evacuate.
YOU MUST PREPARE TO LEAVE AT A
MOMENTS NOTICE**

This level indicates there is significant danger to your area, and residents should either voluntarily relocate to a shelter or with family/friends outside of the affected area, or if choosing to remain, to be ready to evacuate at a moment's notice. Residents **MAY** have time to gather necessary items, but doing so is at their own risk.

THIS MAY BE THE ONLY NOTICE THAT YOU RECEIVE. Emergency services cannot guarantee that they will be able to notify you if conditions rapidly deteriorate. Area media services will be asked to broadcast periodic updates.

**LEVEL 3:
“GO” Evacuate NOW,
LEAVE IMMEDIATELY!**

Danger to your area is current or imminent, and you should

Evacuations have been lifted and the fire has been contained. You will still see smoke inside the foot print of the fire but crews are actively working on putting out those hot spots like what is shown in the picture. Please give the crew space and don't attempt to visit as the fire ground is still a dangerous place.

This was a very serious fire. It took decisive leadership, dedicated personnel and strategic partnerships to have the outcome that we did. We are very thankful f... [See more](#)
