

The Let People Vote / Reject R-88 campaign has tried to honestly and fully comply with disclosure requirements. We reviewed what was posted by the commission on its website and aimed to follow what it required.

In the phone call described in Case Number 59769 both the committee name and Top Five Contributors were clearly spoken. The most current Political Advertising Guide on the PDC website states that for "Broadcast ads, videos, and online audio ads - clearly identify or speak the sponsor's name and any party preference. (Sponsor's address not required.)".

By following that rule it was easy for individuals to identify the Reject R-88 campaign as the sponsor of the call.

Thank you for the opportunity to respond.
