Dear Tabatha:

I am writing in response to the complaint filed against Yes for Camas Community and myself. At the time I heard from Peg Leland, the complainant, I had not functionally taken over as treasurer for the committee. I had no knowledge of any emails sent and the complaint was filed within an hour of my first knowing about the request. Subsequent to that I obtained the information and forwarded it to Doug Speas for dissemination since I didn't want to provide my email to anyone involved. As far as I was aware, the information was passed on to Peg Leland. Later I found out that Peg had received some information but hadn't received the names and addresses of the contributors so I passed that information to her via Nextdoor.

In the end, one contributor did exceed the contribution limit which was not anticipated when the committee was registered. We are willing and able to correct that however it needs to be done.

Sincerely,

Kerry Ticknor
