Please see response to PDC Case Number **77272**:

Allegation One: Alleged violation of RCW 42.17A.320 for failure to identify sponsor on political advertising (video)

Thank you for bringing this to our attention. This was an oversight on our part and we are in the process of revising political video advertising. All new videos have the correct sponsor identification according to RCW 42.17A.320. We are working diligently to have previous videos updated within the week.

Allegation Two: Alleged violation of RCW 42.17A.555 by using public facilities (name placard) for an election campaign

The video with the name placard has been revised and will be reposted without the placard.

Thank you

Gary Edwards
