To Whom it May Concern,

I was approached by the Committee to Recall Sheriff Hatcher and asked to help them record some videos. I offered to perform the work *pro bono*. After the videos were finished I was informed that I had to estimate the value of work that I had donated. I looked at the hours that I spent and what my contract rate would be and came up with a value. I have not done work for a recall before and did not realize that there were limits for this. The committee was also unaware that there were limits. This is being addressed in a separate on-going investigation.

Thank you,

Bryan Pratt
