What impact does the alleged violation(s) have on the public?
<p>The impact on the public by this group has had on the public is multi-faceted. First, they barrage and block legitimate political signs that they dislike, while leaving those they like alone. Secondly, the amount of lies they are spreading are affecting our school board meetings. They have called the school board their 'enemy,' spread disinformation, and invited extremist groups like the proud boys to help harass/threaten/intimidate others. Members of the community and parents are scared to attend these meetings to speak up because of their actions. They have created a climate that makes them feel comfortable threatening board members, calling them names, calling out their spouses/families, and calling for another civil war. Then, another person filed a complaint like this and the washougal moms discovered it. They stated on their telegram account that they changed the wording on their website so as not to 'trigger' others. I wonder why they would need to change their website wording if they aren't doing anything wrong?</p>

The list of who not to vote for in Camas and Washougal if you want your cities to stay proud American instead of turning into Portland or California. Pretty much anyone who is currently in office needs to be removed at all costs !

Very important to vote out Camas board directors Erika Cox and Corey McHenry .. both are destroying the Camas School district

No on Steve Hogan

No on Marty (will post last name later)

As for Representative for the third congressional district we personally have met Joe Kent many times and have a lot of respect for him. He has shown to love and support his local community.

We have information on half these candidates already on our website and a lot on our telegram. The other half we will be uploading soon.

What impact does the alleged violation(s) have on the public?

A local political group called the "Washougal Moms" is campaigning in opposition to school board members in Washougal and surrounding towns, both as a category and by name. This group accepts contributions, spends money on signs and a website (and other activities), and has not registered as a PAC. The impact on the public of this group has been profound, since school board meetings have become tense with members of this group both vituperatively berating school board members and inviting individuals (such as a non-resident "Trevor" they) to threaten school board members. They have offered to write prepared statements for individuals willing to appear at school board meetings. At the last meeting, a man said he was "challenging" them for the coming "civil war," and that school board members won't be "the winners."

Washougal resident Melissa McIlwain spoke in opposition of how the board policies are. She stated that there is 'your' science and 'my' science and she doesn't agree with what is happening.

Ellie said that she would like to educate the board on some Revised Code sections regarding assault, strangulation and suffocation of children.

Melanie Wilson submitted written comment sharing her support of the agenda. She stated that creating an equitable environment for all students benefits everyone. Question and answer sessions by school officials, would help to dispel fear.

David Young submitted written comment urging the school board to make sure they follow guidance issued by the U.S. CDC and WA State Department of health, state and local. He also shared his support of Policy 0050 "Equity, Diversity and Inclusion" and one ripe for misstatements and misunderstandings so he hopes that adequate procedures and training and there be a plan/process/protocol in place to handle the resulting form the difficult conversations.

Terri Niles submitted written comment sharing that what is happening at school is disheartening and thanked the board for standing with the parents of this district. She also thanked healthcare professionals and also for the efforts to make our schools a safe place for all.

Joshua Loehr submitted written comment advising that sectarian controls (such as a facemask) will not be admitted cannot be enforced and will be optional. A distance and wardrobe rules are null and void.

CANAS:
DO NOT VOTE FOR MARGARET DALE BODENKE - She is a career school politician fully engaged in the CRT policy in CBD and is the author of most of the CRT policy.

CANAS: DO NOT Re-elect ANY School Board members. All of these people are self-hate to go. SAVE YOUR CHILDREN!

In Vancouver: DO NOT VOTE FOR ANNE MCENEREY-OGLE - For left progressive, BLM worshiper. Is currently in court trying to get the power to charge all people who went to church during Covid.

Melanie Wilson is a leftie, yes you guessed it. She wrote letters to the editor that we need stricter gun laws, apparently the already thousands of restrictions aren't enough.

Melanie Wilson also supports CRT and the school board

We edited our website just a little bit and reworded it for the very triggered individual..

Apparently exposing the truth about politicians means you have to register as a PAC 😏

All funds collected go for attorney fees. Not signs. We are not a political organization. We are working to expose individuals who infringe on the rights of our children and bring their politics into our schools. Was this Donna Sinclairs idea ? The same one who claimed David Madore was funding us?

Nice try though!

Thank you for the compliment that it's making an impact. Most citizens had no idea how bad our school boards were!

"Political committee" means any person (except a candidate or an individual dealing with the candidate's or individual's own funds or property) having the expectation of receiving contributions or making expenditures in support of, or opposition to, any candidate or any ballot proposition.

We are not a political committee and have taken no money for political issues. We are exposing what our local agencies and officials are doing. We want to inform our town of who these people are since most of them know little of what's going on and our journalists are nothing more than propaganda for our government. Every politician we have posted about we also post proof of they have done (articles, their social media posts). According to that complaint anyone

You're not allowed to expose your government anymore.

Bye Bye Donna Sinclair and Chuck Carpenter

All those five crooked elected officials had to do to keep their little corrupt organization at Washougal School District going, was not discriminate against three women and harass them. No one would have ever found out just how bad everything was. These signs are going up all around town

The board members in the long-term will not only end up with criminal charges and civil penalties, but also a massive lawsuit personally against them. The school district and their political careers will permanently be over. They will not be able to use the school attorney to defend themselves because the crimes they committed are not covered under qualified immunity.
