My response to the two complaints filed against me are that the campaign funds to my knowledge were spent on campaign related expenditures and there have been false allegations and narratives put out there to make it seem otherwise. Anything that has been deemed as non campaigned related I have personally reimbursed and if the PDC finds more things deemed not so I will gladly reimburse. As a first time candidate who ran a majority of the campaign by myself there were some mistakes made with filing some of the C4 reports that I will be working with my assigned specialist Jenny Polek to correct. I am looking forward to continuing cooperating with the PDC to handle this situation and move forward.
