Dear Tabitha

Thank you for the email & helpful links.

Please advise if additional details are required or if any other filing amendments are necessary. Thank you very much for the ongoing guidance from the PDC as we strive to remain compliant.

RESPONSE:

1. C6 disclosure for the postcard/mailer
  - a. Per PDC consultation correspondence on 9/13/21, this informed the decision to establish a PAC & to run the campaigns without collaborating with the candidates. The disclaimer was provided in adherence of the guidance sought out and obtained. This correspondence does refer to independent expenditures, however the topic of '3 or more candidates on a single political advertisement' was not discussed, as that had been previously covered. Please see 1b to follow.

- b. Per the PDC correspondence on 7/26/21, regarding a separate pamphlet inquiry (prior to any PAC establishment consideration), where 6 challengers & 3 incumbents were presented, the confirmation obtained was that, so long as the pamphlet contained "at least three candidates for election to public office in Washington state, then the slate card is not considered a contribution to the candidate's campaign". As such, the mailer/postcard that included 3 candidates in the General Election did not qualify as independent expenditures to each candidate's campaign.

- c. For these reasons, it was understood that C6 filings were not required for the mailer, or any other content developed as all content communicated support of all 3 challengers. If I have misunderstood this guidance, please advise.

2. Expense records lacking sufficient detail per the complainant

- a. CRS Printing 9/27/21 – amended C4 submitted to provide even more information than initially submitted. Invoice also attached for evidence.
