Hi Mr Agina ,

I'm very sorry I haven't responded to your complaint earlier . I spoke with Tabitha Townsend several weeks ago and she indicated that I would be contacted by yourself . I called your number today but got interrupted and didn't leave you a message .

Concerning the complaint that was filed against me ; As a councilor for the City of Sequim , we are not provided a cell phone for city business . The Sequim City website gives citizens a phone number that is forwarded to our personal cell phone . We are NOT given a stipend to pay for our personal cell phone . We are totally responsible for this cost on our own .

I did communicate with a citizen that we needed her support in our election . She reached out to me prior to my response , on what we were going to do for the citizens if elected .

I was not running for office , my term expires on 12/31/2023 . I was supporting my fellow councilors

.

I will continue to try and reach you and look forward to speaking with you .

Sincerely,

William Armacost
