Tabatha,

Thank you for bringing this to my attention. The reports you reference were filed in a timely manner however a some change in the ORCA format during this time period caused four reports to sit in the "file" without submitting for some reason. All 4 were transmitted again this evening.

Thank you,

Don

PS: I sent everything I discovered sitting there in the file and I mistakenly submitted the Sept report tonight also. Is it possible to return that or load up a new one as I am not finished with September yet?
