In response to the filed complaint against the HELP Committee:

Our committee was unaware of the 7 day filing and in turn missed it. We had just filed January 23, 2024 and did not know we needed to file again so soon. This was an item that we were unaware of. This filing was completed as soon as we were made aware on February 8, 2024. This committee is committed to full disclosure and remaining in compliance. This was an honest oversight on our part that was addressed and corrected on the spot.

Sincerely,

The Lakewood HELP Committee
