Hello Jennifer,

In response to complaint noted in your email below please see our responses:

The January C-4 had a filing due date of 1-23-2024 and was filed on that date. After 1-23-2024 I received expenses to enter into Orca that were paid on 1-19-2024 (the invoice for the 350 signs and stakes was one of these invoices). As we were new to the reporting processes was not aware that an amended C-4 needed to be filed after entering these expenses into Orca. An amended C-4 has since been filed and the expense for the signs and stakes now appears on the C-4.

Looking at the Events calendar on the PDC website noted the date that the February C-4 was due 2-12-2024. When logging into Orca on 2-7-2024 noted that the wrong C-4 due date was looked at in the Events calendar and the C-4 for the special February election was actually due on 2-6-2024. Therefore, the C-4 was filed a day late on 2-7-2024.

Please let me know if you have any questions or require additional information.

Thank you,
