The Preamble of the United States Constitutio and is often forgotten. I believe this statement was written first and in bold to show the importance of the citizens in a democracy. "We The People" reminds us that it is our right and responsibility to have power over the government.

After complaining about the government for years I have decided to stop. I now recognize my right and responsibility given to me by God and our founding fathers to fight for the change we all desire. I Kevin Young hereby call on all Pend Oreille County and United States citizens to take a stand with me against corrupt government powers. I Kevin Young am seeking to be the new Pend Oreille County Commissioner and lead this County into a better future.

The first order of business I intend to accomplish is eliminating The Growth Managment Act and the green energy policies that pertain to building. These regulations drive up costs and put heavy burdens of citizens who are trying to build on their own property.

Another issue I would like to address is property taxes. I will fight to end the payment of property taxes for citizens 65 and up. These citizens have been paying taxes all of their lives and should not be forced to "rent" their property from the county anymore.

In conclusion, I view unnecessary taxes and regulations as chains around the citizens of this amazing country. It's time for "We The People" to demonstrate the power entrusted to us by our founding fathers. Let's make this county great again.
