

Regarding Case 160941

I have tried to file a C-4 report in a timely manner, but the reporting program is complicated, and not user friendly. Perhaps it is my 75-year age and lack of computer skills, of perhaps it is a program that does not have simple “log in” methodology or a simple method to correct the input..

I do not believe that I have violated the law, if I did it was a minor violation due to the complex filing system that is not user friendly. In the compliance with full disclosure before the end of 2024, I have attached a spreadsheet of my campaign expenses, which were below \$5,000. Also, in November, I tried to file a dissolution of my campaign. Apparently, that did not go through or was simply lost in your complex, non-user-friendly software.

By sending you this email and attached spreadsheet of my final campaign expenses, I believe I have complied with the requirements set forth in RCW 42.56.070. I do not want a Filer Assistance Specialist to contact me.

Sincerely

David W. McClain
