Complaint Description
<p>Conner Edwards reported via the portal (Fri, 11 Oct 2024 at 1:48 PM)</p> <p>Description of Complaint</p> <p>See attached complaint.</p> <p>Notice to Respondent</p> <p>I apologize to you for any inconvenience caused by this complaint. The chance that you will actually be fined for the violations identified above is extremely small because the agency is averse to doing the work necessary to bring cases to hearings. Most likely this case – and any future cases against you – will simply be dismissed by staff with a so-called "warning letter".</p> <p>This complaint is one of hundreds that I have filed to highlight and ultimately fix the significant shortcomings associated with the agency responsible for administering our state's campaign finance laws.</p> <p>What are these shortcomings?</p> <p>Overcomplicated and outdated requirements that are difficult to understand and comply with. Failure to properly educate the regulated community about the tasks they must perform to remain in compliance with applicable requirements and avoid complaints. Failure of the agency to send regular reminders to filers about pending deadlines. A failure to proactively enforce applicable requirements which enables the complaint system to become weaponized. Non-intuitive, non-user friendly, and buggy reporting software. Failure to meaningfully enforce core requirements. Failure to follow the best operating practices of other neighboring campaign finance agencies. An agency leadership structure that largely disregards stakeholder input and is slow to identify and resolve major agency deficiencies.</p> <p>I believe that the best way to motivate the agency to address these problems is by filing a large number of complaints so that the agency's problems become impossible to ignore.</p> <p>Slowly (too slowly) this strategy is starting to yield concrete and beneficial changes. You can read about these changes here: https://www.seattletimes.com/seattle-news/politics/why-one-man-filed-800-campaign-finance-complaints-against-wa-candidates/</p> <p>If you believe that the agency could have done something different to help you proactively avoid the issues identified in this complaint, I hope that you will consider including it in your response. The agency, and the public, can benefit from your perspective and feedback.</p> <p>"Be the change that you wish to see in the world." — Mahatma Gandhi</p>
What impact does the alleged violation(s) have on the public?
The PDC has an obligation to provide transparency to the voters by enforcing disclosure requirements. The agency's failure to actively monitor compliance with these requirements and enforce them damages both the public and members of the regulated community.
List of attached evidence or contact information where evidence may be found

List of potential witnesses with contact information to reach them

Certification (Complainant)

I certify (or declare) under penalty of perjury under the laws of the State of Washington that information provided with this complaint is true and correct to the best of my knowledge and belief.

Background

Commercial Advertiser Disclosure Law

Washington state law allows any member of the public to request information about a political advertisement from the company that provided the advertising.¹ These companies are referred to as “commercial advertisers” in the law.

This disclosure, which dates back 50 years to Initiative 276 which created the PDC, is an important counterpart to the reporting done by campaigns and sponsors of independent expenditures. It also provides critical information when sponsors of political advertising fail to identify themselves.

A commercial advertiser is defined as any person or entity that sells a service communicating messages or producing material for distribution to the public, when the message includes an appeal for votes or financial support in an election campaign.

Examples include, but are not limited to, **print shops, copying center businesses**, direct mail services, billboard companies, broadcasters, print or online publications and online digital platforms. See RCW 42.17A.005(10), RCW 42.17A.345 and WAC 390-18-050. **[emphasis added]**

Staples/Sycamore Partners

Over the last several election cycles, there have been numerous political expenditures reportedly having been made to Staples. See attached.

See also link from PDC's expenditure search database where Staples is listed as a recipient of political committee funds: https://www.pdc.wa.gov/political-disclosure-reporting-data/browse-search-data/expenditures?recipient_name=Staples

Additionally, see link from PDC's search database where Staples is listed in the description field for expenditures: <https://www.pdc.wa.gov/political-disclosure-reporting-data/browse-search-data/expenditures?description=Staples> This link includes many instances where Staples was the ultimate recipient of committee funds (when reimbursements were reported where Staples was the subvendor) but it also will include many entries relating to the purchase of staples (a common type of metallic fastener).

Violations

On Tuesday, October 8, 2024, I sent an e-mail to various e-mail addresses associated with Staples and its parent company Sycamore Partners. I included the listed e-mail addresses for: general inquiries for Staples, media inquiries for Staples, general inquiries for Sycamore Partners, and media inquiries for Sycamore Partners. See attached.

As a Washington State registered voter, I believe that the information contained in commercial advertisers' books of account is useful because it allows one to determine whether political committees are timely and accurately reporting expenditures/debts/in-kind contributions.

The issue of whether or not a company such as Staples (which offers printing/reproduction services) must comply with RCW 42.17A.345 has already been settled in PDC Case No. 60811.³

I have not received a response to my request made pursuant to RCW 42.17A.345.

WAC 390-18-050(4)(b)(i) requires that the information required to be maintained by commercial advertisers must be provided "[b]y digital transmission, such as email, promptly upon request, but no later than two business days".

Tuesday was the first business day following the request. Wednesday was the second business day following the request, and Thursday was the third business day following the request.

Conclusion

Because of the rapidly approaching 2024 general election and my desire to view these records, I am unwilling to wait longer to see if the respondent complies with their statutory obligations. I am filing this complaint with the hopes that the PDC can rapidly bring the respondent into compliance with RCW 42.17A.345.

Best,

/s/

Notice to Respondent

I apologize to you for any inconvenience caused by this complaint. The chance that you will actually be fined for the violations identified above is extremely small because the agency is averse to doing the work necessary to bring cases to hearings. Most likely this case – and any future cases against you – will simply be dismissed by staff with a so-called "warning letter".

This complaint is one of hundreds that I have filed to highlight and ultimately fix the significant shortcomings associated with the agency responsible for administering our state's campaign finance laws.

What are these shortcomings?

Overcomplicated and outdated requirements that are difficult to understand and comply with. Failure to properly educate the regulated community about the tasks they must perform to remain in compliance with applicable requirements and avoid complaints. Failure of the agency to send regular reminders to filers about pending deadlines. A failure to proactively enforce applicable requirements which enables the complaint system to become weaponized. Non-intuitive, non-user friendly, and buggy reporting software. Failure to meaningfully enforce core requirements. Failure to follow the best operating practices of other neighboring campaign finance agencies. An agency leadership structure that largely disregards stakeholder input and is slow to identify and resolve major agency deficiencies.

I believe that the best way to motivate the agency to address these problems is by filing a large number of complaints so that the agency's problems become impossible to ignore.

Slowly (too slowly) this strategy is starting to yield concrete and beneficial changes. You can read about these changes here: <https://www.seattletimes.com/seattle-news/politics/why-one-man-filed-800-campaign-finance-complaints-against-wa-candidates/>

If you believe that the agency could have done something different to help you proactively avoid the issues identified in this complaint, I hope that you will consider including it in your response. The agency, and the public, can benefit from your perspective and feedback.
