Citizens for Better Schools is made up of volunteers with the goal to educate the voters of Oak Harbor on the benefits of supporting the school district on levy and bond issues. As I mentioned, we are volunteers with full time jobs. I acknowledge that the filing in December was late but the recent filing due on the 21st was filed in advance of the deadline. I accept full responsibility for the tardiness of the filing but all records are accurate and up to date and the mistake was a lapse in follow up and nothing else.

Please let me know what the formal procedures are for responding to this complaint or will this response suffice.

Again, I apologize.

John Chaszar
