Phil,

Thank you for your assistance and patience while we resolve this issue. Our bookkeeper had a phone call with a PDC disclosure specialist and they believe they have identified the filing issue. When our bookkeeper was contracted in early 2024 they completed an audit to confirm all donations and expenses were reported correctly. Amendments to the C-3s were filed, but unfortunately we believe there was a step missed during the amendment process. When a C-3 is amended, the PDC platform does not subsequently update the reporting for that C-4 reporting period. Instead, we should have re-filed an amended C-4 to reflect the new donation numbers from the affected C-4 period. This is a rolling problem from C-4 to C-4, so our bookkeeper is now going back to make sure the C-4s have been updated when a donation or expense change was made in that period during the audit. They hope to have this process complete by 5/23/2025 and appreciate the additional time to make sure the process is completed accurately.

Much success,

Doug
