Good Morning and Happy Tuesday.

This is regarding PDC Case Number **173736**.

I have added this information to my signs that are posted in the community.

There are some signs that were stolen, that would not have the information on them if for some reason someone put them back out. There is a total of 4 stolen.

These have been out on the signs that are out, and we have put them on the signs that still need to go out.

The stickers have a protective film over them that will protect them from rain and weather conditions.
