Tabitha:

Thank you for taking the time to connect with me today. I was serving as my own treasurer during the difficult covid time in 2021. Around this time we had a child moving across the country for an extended period of time and another child suffering from a serious medical condition that is only recently getting better. These violations are good faith omissions. I'm doing the best that I can with a not so user friendly reporting system. I've asked for assistance from a reporting assistant to make sure that I'm in compliance.

Best regards,

Steve
