Here is my response to complaint #175692

1. Regarding late deposit: This is correct. It was an error on my part. I forgot to file my C3 in a timely manner by the Monday of the following week.
2. Improper Donation; When I accepted the donation from Keith Scott, I did so with the understanding that I would be repaying him \$1200 due to not having a primary. I also sent an email to them informing them of the rules, and I would be returning \$1200. The repayment was made within the required timeframe. Mr. Scott has cashed the check, and the repayment reported on our C4.
3. Primary Money: The Campaign had no way of knowing if we would have a primary until after the conclusion of filing week. Donations received after filing week were reported as general election contributions. I will be amending the previous reports accordingly.
4. Missing sponsor address: This was an oversight from our web page designer, It was corrected immediately.
5. Late C4: I honestly don't know how this happened. I distinctly remember entering all the information and was certain I had submitted the report. As soon as I received your email regarding the violation , I immediately checked my records and re-submitted it.
