Response to PDC Complaint #177044:

In the second week of May of this year, when I filed for the At Large Council seat, I repurposed three large campaign signs and 30-yard signs from my 2021 campaign for the Council County. I installed the three large campaign signs same week. At that time, I understood they needed to have a "Paid For:" on the sign. Of course, in 2021-yard signs and large campaigns sign were exempted from the Sponsor ID.

When I installed the repurposed signs including the one that is the subject of the complaint, I used a permanent marker and wrote on the sign "Paid for by Elect Misty Flowers" on the sign. I measured my largest font and made sure my permanent marker Paid For: was larger than 10% of my largest font on the sign.

"Paid For by Elect Misty Flowers" is on the sign in the picture, lower right corner, included with the subject complaint. But it is not apparent due to the angle of the complaint picture. However, I note that I did not add the required campaign address to that sign. Upon receipt of the complaint, I immediately added the address to the Paid For: ID (See attached) and will continue to ensure that all repurposed and new large campaign signs and yard signs have the required ID and are compliant.

I believe I am currently compliant with all sponsor ID requirements at this time. I will continue to ensure that any repurposed sign by supporters have the required Paid For: and have ordered stickers to attach to any signs that may be out there from my previous county campaign.

Sincerely,

Misty Flowers
