Subject: Re: Mike Kreidler - Request for more information

Hello again,

We have amended reports from the 2016 cycle with sub-vendor information or additional descriptions. Please note, several of the expenses Mr. Morgan included in his complaint are below the \$50 threshold for itemization, as reflected in our amended reports.

As for the speculative charges for flights and lodging in Chicago, Mr. Kreidler's primary purpose for being in Chicago was not campaign related. Therefore these costs are not campaign expenses. All campaign-related expenses from this trip have been properly reported.

Thank you for the opportunity to respond. Please let me know if you have additional questions or concerns.

Best,
