RE: Complaint 23492

Dear Ms. Blacksmith,

Attached is the response to your request for further information regarding my expenditure filings for the 2017 campaign. I have organized my response "line by line" to correspond directly with your attached request. I appreciate how specific you were in the information needed and it aided greatly in my prepared response.

An additional question posed was that of a final 2017 Campaign Report and I apparently assumed that the November 2017 report was the final. If you review my total records, I have faithfully submitted to your commission the annual F-1 not denying your authority for reporting.

Thank you for your POSITIVE assistance on the phone and please contact me with further request.

Sincerely,

A handwritten signature in black ink that reads "Largo Wales". The signature is written in a cursive, flowing style.

Largo Wales
